### DIVISIONS 81 & 82

An old art form takes a new direction with the introduction of Architectural Muraltiles. Hand executed by European craftsmen in the United States, and as precisely composed as a modern painting, the tiles utilize ceramics, glass, metal, sgraffito, marble chips and Italian mosaics in various color combinations to achieve dimensional textures of striking interest.

■ The tiles are made of concrete-latex, and available in 4"x4", 4"x8", 8"x8". A 1'x1' and special sizes to order.

■ Designed to be used as full wall patterns, in groups or in hundreds of irregular combinations, the scope of the Muraltiles collection is virtually unlimited for architectural application. The surfaces range from smooth to heavily textured, from plain to deeply patterned. The mosaics come in a choice of two thousand colors.

■ For custom ordering, we will be glad to quote prices on preparation of custom shapes and sizes.

■ All tiles are basically a 1/2" thick slab of concrete with latex added for resistance to moisture, freezing and cracking.

# RETURN TO DESIGN DIV.

1. 8"x8" Italian mosaics
2. 8"x8" Italian mosaics with ridged design
3. 8"x8" Marble chips and brass strips
- 3A. 4"x8" Marble chips and brass strip
4. 8"x8" Glass and ceramic mosaics
5. 8"x8" Mosaics and aluminum strip
6. 8"x8" Projecting aluminum bars or glass rods
7. 8"x8" Mosaics, glass and smalte
8. 8"x8" Italian mosaics
9. 8"x8", 4"x8", 4"x4" or 1"x1' Plain concrete-latex
10. 8"x8", 4"x8" or 1"x1' Marble chips
11. 8"x8" Marble and glass mosaics
12. 4"x8", 8"x8" Italian mosaics, gold, silver
13. 4"x8" Concrete-latex in 2 colors
14. 4"x8", 8"x8" Mosaics and colored gravel
15. 4"x8" Concrete-latex in 2 colors
16. 4"x4", 4"x8", 8"x8" Concrete-latex in 2 colors
17. 4"x4", 4"x8", 8"x8" Marble and glass mosaics
18. 4"x4", 4"x8", 8"x8" Italian mosaics, gold, silver
19. 4"x4", 4"x8", Brass strips
20. 4"x4", 4"x8", 8"x8" Indentations in concrete
21. 4"x4", 4"x8", 8"x8" Projections in concrete

Hand executed by European craftsmen in the United States, the tiles come in various combinations and textures. The scope of the Muraltile collection is virtually unlimited for architectural application.
